Dear Mr. Eastman:

To your friends your birthday is a special day; it gives them the opportunity without offence to break through your modesty and realize it, try your prairie and wish you years of health and happiness. Blessed by the joy and satisfaction that must come to you from the proven merit and work of the things.

Sincerely yours,

MUTUAL SAVINGS BANK

Our bank offers you an investment for your savings which is secure.

Believing that our depositors are entitled to as high rate of interest as is consistent with careful, conservative management, dividends are declared in accord with that policy and will be paid to the extent that such management justifies and the law allows.

The balance of earnings not used for dividends is carried to surplus, as a Guaranty Fund for protection of depositors. The depositors are the owners of the bank pro rata, there being no capital stock, hence all the assets of the bank belong to the depositors and may be eventually so distributed. A depositor may have any amount on deposit free of state and local tax regardless of deposits in other banks.

Deposits made during the first five business days of any month draw interest from the first of that month; those made after the fifth business day draw interest from the first of the following month, except in January and July when ten business days are allowed.

Interest is credited to depositors only on the first of January and July, and if not withdrawn draws interest from that date—compounding twice a year.

All correspondence should be addressed and drafts made payable to Passumpic Savings Bank.

All our business is held in the strictest confidence, and you may expect prompt and courteous service.
