VARSITY OPENS SEASON WITH OLD RIVALS ST. LAWRENCE STRONG

(Continued From Page One)

DEAN WALKER FAR EXCEEDS AVERAGE FROSH IN YEARS

Middle Aged School Teacher Included in Ranks of 1926 Class

L. Dean Walker of the 1926 class has the distinction of being the oldest entering student this year. He is in his forties. Not only is he taking a regular freshman course, but also is among the first newcomers to try out for The Campus.

Mr. Walker began teaching before the greater number of Rochester students were born. With an education limited to a district school, Mr. Walker has made an enviable record as a teacher and school principal. His last years of teaching were spent at North Brookfield High School as principal, working to real future without a higher education. Mr. Walker gave up his teaching and moved to Rochester, where he enjoyed the freshmman class.

While Mr. Walker digs away at his college work and keeps house for his youngest daughter, his wife teaches in a district school outside the city, returning home with their elder daughter, 12 years of age, over the week-end.

Having located the oldest freshman, The Campus will try to unearth the youngest by next week.

Norway and Iceland Visited By Dr. Alling Last Summer

Dr. Harold L. Alling, '15, of the Geological Department, spent from June 28 to August 11 on a cruise of the Norway Geological Expedition left England June 26, and was on the voyage of the Norway, a steam ship, which took him to Iceland. Here he found the fascinating country of the Adirondacks or of the same name. The cheeses are made of whale fat, and the whale is the only animal that makes the cheese. The cheeses are called "whale cheese." The cheese is excellent and is a popular delicacy in Iceland.
